Technical Writing is fun. All engineers should know how to write technically.

Technical Lettering should be done freehand with speed.

HARDWORK BEATS TALENT IF TALENT DOES NOT WORK HARD

Success is not always about greatness, It is about consistency.

A DREAM DOESN'T BECOME REALITY THROUGH MAGIC

IT TAKES SWEAT, DETERMINATION AND HWARWORK.

WORK HARD IN SILENCE, LET YOUR SUCCESS BE YOUR NOISE.

The elevator to success is out of order, you have to take the stairs.

The DICTIONARY is the only place where success comes before work.

1234567890 *1234567890* This is how you write numbers technically.
